GLENDALE, (LOS ANGELES POSTOFFICE), LOS ANGELES COUNTY, CAL., SATURDAY, FEBRUARY 5, 1921

132

GOVERNOR HERE ON FEBRUARY 8

CHIEF EXECUTIVE OF STATE TO MAKE ADDRESS BEHALF OF MAJOR LINEBERGER

OTHERS WILL TALK

JOHN ROBERT WHITE TO BE ONE OF SPEAKERS; MEETING AT HIGH SCHOOL

William D. Stephens, governor of California, will speak in the Glendale high school auditorium next Tuesday night, it was announced today by the Glendale Republican club, in behalf of the candidacy of Major Walter F. Lineberger, Republican candidate for congress in the ninth district, which includes this city.

Some weeks ago the governor arranged to come to Glendale to speak in behalf of Major Lineberger, the date being announced as February 11. However, the executive has been forced to change his plans and so the meeting will be held next Tuesday night, starting at 8 o'clock.

Major Lineberger will speak. Besides the governor, John Robert White of this city, member of the state legislature, representing the sixty-first assembly district, will be a speaker. Another will be Al Bartlett, chairman of the Republican County Central committee of Los Angeles county. It is also expected there will be several local speakers.

Lineberger Here Today

Major Lineberger was a visitor in Glendale today and was in consultation with a number of local Republicans. He also visited in Eagle Rock City and surrounding territory. "I am well pleased with the outlook," said Major Lineberger, when asked concerning his campaign. "It seems that there is only one thing to do and that is, to get out the vote. The people of Glendale gave me a fine reception and banquet when my nomination was ratified here and I am looking forward with considerable pleasure to the meeting Tuesday night when Governor Stephens will be present and make an address."

Club Meeting for Tonight

Members of the Glendale Republican club will hold a meeting tonight in the office of Judge H. M. Miller for the purpose of completing arrangements for the gathering next Tuesday night and, too, for considering suggestions relative to the candidacy of Major Lineberger.

The special congressional election is to be held on February 15 and, it is stated, it is the purpose of the local Republicans to effect a strong organization in order that a comparatively large vote will be cast.

LOCALS WINNER

GLENDALE HIGH SCHOOL HAS BEST ON CONTEST WITH ALHAMBRA SQUAD

By a score of 21 to 16, the fast basketball team of Alhambra met defeat at the hands of the local high school players in the gymnasium of Glendale union high school Thursday night.

The lineup of the locals at the start of the game was as follows: Dennison, center; Colburn and Goertz, forwards; Cline and McNary (captain), guards. The only substitute was Floyd Herman, who was used in the last ten minutes of play and who made two baskets.

The Glendale-Alhambra basketball game is the only game of the league played on an inside court.

PARTY IS GIVEN

E. S. RHODES IS GREETED AT SOCIAL AFFAIR; LEAVES FOR ARIZONA TRIP

Mr. and Mrs. Frederic A. Clarke of 251 Oak street have as their house guest E. S. Rhodes of New Philadelphia, Ohio. Thursday night Mr. and Mrs. Clarke entertained Mr. and Mrs. Edgar Hitchcock and Mr. and Mrs. Nevin Alberts in honor of Mr. Rhodes. Last night Mr. Rhodes entertained at a dinner party in Los Angeles Mr. and Mrs. F. A. Clarke and son Wallace, and Mrs. Rutherford and son, who are wintering in Los Angeles.

Mr. Rhodes leaves Glendale today for Arizona, where he has mining interests.

COMPLETE LIST OF ACTIVE AND RESERVE C. OF C. MEMBERS GIVEN

Names of Those Who Have Signed Up in Past Four Days Arranged in Alphabetical Order

The complete list of members, both active and reserves, of the re-organized Chamber of Commerce secured in the first four days of the drive now being conducted was given out today at the organization's headquarters for publication, following action taken at the workers' luncheon yesterday, when it was announced that it was the desire of the executive committee that the entire membership so far signed be printed.

The list is alphabetically arranged. Where a star (*) appears before a name, that means that person is a member of the reserve. Where a figure appears, that indicates the number of active memberships taken out.

Here is the complete list:

A
*Adams, Mrs. A., 213 N. Brand.
*Addams, H. E., 126 W. Arden.
Anderson, Mrs. Alice, 1125 E. California.
Allison, Lexie H., 130 S. Brand.
Ambrosini, Anthony, 146 S. Jackson.
*Anderson, Eva N., 239 N. Kenwood.
*Ardery, L., 220 N. Central.

Armstrong, W. H., 104 N. Central.
Arnold, Dr. Frank N., 103 1/2 S. Brand.
Ashton, W. T., 618 E. Broadway.
Autoelectric Service Co., 113 W. Harvard.
*Ayars, Mrs. F. C., 315 N. Orange.

B
Baird, A. L., 130 S. Brand.
*Barton, Mrs. A. A., 630 N. Howard.
Bennett, Carrie E., 615 S. Glendale.
Beeman, M. J., 519 N. Central.
Bachman, Dr. C. W., 831 E. Windsor Road.
Blumenthal, Harry, 722 N. Central.
Beauchamp, H. F., 117 S. Brand.
Bartlett & French, 201 S. Brand.
Bartlett, H. E., 347 N. Brand.
Bachman, Dr. C. W., 831 E. Windsor Road.
Baker, C. R., 312 E. Broadway.
*Bardill, Marie, 1221 N. Brand.
Bertran, Harry E., 801 N. Central.
*Bates, E. S., 535 Pioneer Drive.

Patriotic Program Is Presented At Cerritos School Behalf P.-T.A.

The February meeting of the Cerritos Avenue Parent-Teacher association was held Thursday afternoon at the school building. After a social half hour, during which coffee and cake were served, the meeting was called to order by the president, Mrs. E. B. Moore.

A special patriotic program was given, which included addresses by Comrade A. W. Scudder of N. P. Banks Post, G. A. R., Mr. Austin, a soldier in the A. E. F., who spent many months over seas, and Superintendent Richardson D. White.

The pupils of the fifth grade presented a sketch called "The Birthday Party." Other pupils of the school who took part in the program were Audrey Haynes of the eighth grade, who gave a piano solo, a review of the life of Abraham Lincoln by George Karcher of the sixth grade, a review of the life of George Washington by Marjorie Prialux of the sixth grade.

Martha Hartzell of the seventh grade related an interesting incident in the life of Lincoln, entitled "Abraham Lincoln's First Speech," and Elsie Whitney of the eighth grade spoke on "Lincoln in the Toyshop." "America the Beautiful" was the song chosen by the girls of the seventh grade as their part in the program.

These young people all did remarkably well and were given a rising vote of thanks by the members of the association for contributing to the success of the afternoon. The program closed with the singing of the "Star Spangled Banner."

HELD TO ANSWER

BOUND OVER FOR TRIAL ON CHARGE OF BURGLARY OF LOCAL APARTMENTS

Joe Barnett, who is charged with burglarizing Ed Kerri's room in the California apartments one day last week and was captured the same night and all the loot recovered, was arraigned Thursday before Judge F. H. Lowe. He made no defense and was bound over to the superior court in \$5000 bail. He was returned to the county jail to await trial.

FOOD VALUE IN PEANUT CANDY

BERKELEY, Cal., Feb. 5.—Peanut brittle candy exceeds in its food value not only bread, flour or any of the cereals or their products, but meat and eggs as well, according to an announcement recently by Professor Jaffa, of the University of California, who has been making a series of experiments on the relative food values of candies.

ESCAPE WITH \$100,000

S. LOUIS, Mo., Feb. 5.—Robbers held up Willis Thornhill, United States mail messenger, today at a railway depot in St. Charles, Missouri, and escaped with a mail sack containing \$100,000.

HEARS BROTHER SLAYER'S VICTIM

MRS. H. P. IRELAND OF EAST WINDSOR ROAD, GLENDALE, RECEIVES TELEGRAM

KILLED BY ROBBER

MEETS DEATH IN MEXICO AS RESULT OF ATTEMPT TO TAKE HIS VALUABLES

Mrs. H. P. Ireland, 807 East Windsor Road, is in receipt of a telegram conveying the information that her brother has been murdered in Mexico.

The telegram came from the superintendent of the Standard Oil company at Amarillo, Texas, and it stated that a man named Virgil Shelton Purdy, aged 19, was found stabbed in the back and one finger cut off in an attempt to get a diamond ring he wore.

Mrs. Ireland has received no further message and she believes that the slain man is her brother. She is conducting an inquiry.

It is stated that young Purdy had gone to work for the oil company less than three weeks ago. Mrs. Ireland judges from the message sent by the company's superintendent that her brother was slain in an attempted hold-up.

C. OF C. TOTAL 468

MEMBERSHIP DRIVE WILL BE CONTINUED TILL TUESDAY, WORKERS' DECISION

The membership drive on behalf of the reorganized Chamber of Commerce will be continued until next Tuesday at noon. This decision was reached at the luncheon of workers held yesterday at the First Methodist church, the motion to continue the drive being made by Owen Emery and when presented by Chairman Jesse Smith, was carried unanimously.

The total signed active membership so far is 468. The total reserve list is 153. The Gold division has secured 257 active members and 37 reserves and the Blue division 181 and 56 reserves.

The workers will meet at a luncheon at the First Methodist church at noon Monday. No luncheon was held today.

HOST TO CLASS

REV. CLIFFORD A. COLE HAS MEMBERS IN HIS HOME FOR SOCIAL TIME

Rev. Clifford A. Cole of the Central Christian church entertained the members of his Sunday school class at his residence, 132 South Kenwood avenue, last night. Plans were undertaken for the establishment of a young married people's class.

Those present were Mr. and Mrs. W. F. Strock, Mr. and Mrs. J. A. McKelvey, Mr. and Mrs. Harry Marple, Mrs. James McBryde, Mr. and Mrs. C. C. Stoler and Homer Miller. Games were played and refreshments served.

J. R. White Will Speak

John Robert White of Glendale, assemblyman representing the sixty-first district, will speak on legislation being considered at Sacramento at a public meeting to be held in Masonic Temple next Tuesday, from 1:30 to 2:15 o'clock in the afternoon. The meeting is to be held under the auspices of the legislative section of the Tuesday Afternoon club. In view of the number of important bills pending before the legislature and, too, because of the prominent part Assemblyman White is playing relative to some of these measures, the committee in charge of the meeting states that a representative Glendale audience is expected to hear the assemblyman's statement.

CONDITION IS CRITICAL

DOORN, Holland, Feb. 5.—The former German kaiser's condition has become so critical that the ex-kaiser has temporarily discontinued his outdoor exercise to be with her constantly. It was learned here today. Attending physicians announced that her condition was much worse.

BAVARIA REJECTS DEMANDS

MUNICH, Feb. 5.—The Bavarian premier has left for Germany to notify the German government that Bavaria has rejected the allied reparations demands.

MRS. PEETE'S FATE NOW RESTS WITH JURY

(Special Service to Glendale Evening News)
LOS ANGELES, Feb. 5.—District Attorney Woolwine was completing the last of the final arguments in Judge Willis' court room today with a sizzling attack on Mrs. L. Louise Peete, on trial for the murder of Jacob C. Denton.

Woolwine mercilessly arraigned the Denver woman, branding her as a "ghoul who robbed the body of the dead," reiterated his demand for the infliction of the death penalty. The case was to go to the jury shortly before noon. Mrs. Peete said she is confident that a verdict of acquittal will be quickly returned.

PASSENGERS AND CREW BELIEVED SAFE

(Special Service to Glendale Evening News)
SAN FRANCISCO, Feb. 5.—With the nineteen passengers and twenty-six members of the crew of the steamer Klamath, believed to be safe on the bluffs near Delmar, efforts to bring them back to San Francisco were under way today at the offices of Charles McCormick company, owners of the vessel, here. The Klamath was driven ashore in the gale which howled over the California coast throughout last night. The Admiral line steamer Curacao was reported to be standing by the wrecked steamer with two tugs dispatched from this city.

ASSERTS GERMANY MUST PAY AND DISARM

(Special Service to Glendale Evening News)
BIRMINGHAM, Eng., Feb. 5.—Germany must pay the war indemnity and she must disarm, Premier Lloyd George declared in a speech here today.

"I advise Germany to accept the bill—\$50,000,000,000 in war reparations—and not allow herself to be misled by passion and repeat the follies of 1914," he said. Lloyd George added that Germany must abide by the peace treaty to insure the restoration of "neighborliness" among nations.

WILSON VETOES REDUCTION IN U. S. ARMY

(Special Service to Glendale Evening News)
WASHINGTON, Feb. 5.—President Wilson today vetoed the resolution fixing the size of the army at 175,000. The President said conditions in the United States and the world at large did not justify the reduction and called attention to the fact that congress last summer fixed the size of the army at 280,000. A proper army organization cannot be maintained with the number of men provided in the resolution, he said.

SUSPENDS NEGOTIATIONS ON U. S. LOANS

(Special Service to Glendale Evening News)
WASHINGTON, Feb. 5.—Secretary Houston in a letter to Senator Lodge, read in the senate today, announced that the treasury department had suspended negotiations with foreign governments on the subject of American loans to the allies. Houston said he wished to leave his successor free to resume the negotiations without being bound to any commitments.

DRY RULE IS PREDICTED UNDER HARDING

(Special Service to Glendale Evening News)
FORT PIERCE, Fla., Feb. 5.—A dry regime under the Harding administration was predicted today by those close to the president-elect. All agreed there would be no tilting of the lid so long as the Volstead act remains unchanged, and some believed he might even insist upon a more rigid enforcement of the law than prevails now.

MAKES ARGUMENT FOR AERIAL DEFENSE

(Special Service to Glendale Evening News)
WASHINGTON, Feb. 5.—The United States would be unable today to prevent an aerial attack on this country by England, Brigadier General William Mitchell, assistant chief of the army air service, told the house naval affairs committee today. He used this as an argument for need of offensive aerial control.

AMERICAN CITIZEN IS KILLED IN MEXICO

WASHINGTON, Feb. 5.—An American citizen was killed in the state of Durango, Mexico, during the uprising led by the Arieta brothers, the state department announced today.

Electric Light Meter Installations Ordered For Local Residences

Electric light meters were yesterday ordered installed in the following residences nearing completion: Mrs. M. Richards, 125 South Pacific avenue; R. S. Todd, 416 North Maryland avenue; H. M. French, 315 North Cedar; C. L. Cyphers, 105 North Belmont; Geo. Cyphers, 124 South Belmont; L. H. Kellar, 437 West Harvard; G. A. Wilson, 416 Milford.

Past Commanders Of Knights Templar For South To Meet Here

The past commanders of southern California and their wives will be the guests of Glendale Commandery No. 43, Knights Templar, at a banquet and entertainment to be given in the Masonic Temple tonight. Over fifty guests will be present, including several past grand officers of other states and also the Past Grand Master of the United States. Arrangements are in charge of C. L. Peckham and Clem Moore.

LOCAL BUILDING RECORD IS GOOD

TWELVE PERMITS ARE ISSUED ON FRIDAY AND SIX ARE FOR NEW RESIDENCES

FIGURES ARE GIVEN

TOTAL SO FAR FOR MONTH IS \$42,266, MAKING SUM OF \$186,049 FOR 1921

There were twelve building permits issued yesterday and they called for the erection of six residences, six garages and one chicken house, one addition and one remodeling.

This brings Glendale's building record for the first four days of February to \$42,266 and the total for 1921 to \$186,049. Yesterday's permits were as follows:

Daniel Hunsberger, 5 rooms and garage, 412 W. California Ave.	\$4,200
A. W. Holmes, 5 rooms, 616 Alexander	4,000
Jennie Ohlman, 4 rooms, 463 Salem	2,500
Frank W. Landreth, 5 rooms and garage, 119 W. Cerritos Ave.	2,500
C. A. Haas, 4 rooms and garage, 1122 E. Wilson Ave.	2,000
A. H. Chapman, remodeling 4 rooms, 216 S. Louise	1,000
Annie Mason Page, 2 rooms, 410 E. Acacia Ave.	500
E. R. Hamilton, garage, 216 N. Jackson	300
Mrs. Emma M. Linden, addition, 333 Chester	200
Valentine Dravenar, 3-room chicken house	200
Mrs. Raber, garage, 831 Orange Grove Ave.	100
Clarence Thompson, garage, 201 Arden	100

DRAMA SECTION

MRS. R. K. SNOW IS HOSTESS AND READING OF ONE ACT PLAYS IS TAKEN UP

The drama section of the Tuesday Afternoon club, of which Mrs. R. E. Chase is curator, met Thursday afternoon at the home of Mrs. R. K. Snow, 609 North Maryland avenue. The reading of one act plays was taken up at this time.

Those present were Mesdames W. L. Andrews, J. Roger Bentley, A. E. Bode, Colin Cable, J. W. Feinstein, Max Green, H. D. Goss, A. M. Hunt, Homer Lockwood, Nash L. Sherman, R. E. Chase, Charles H. Temple, H. C. Wilcox, A. B. Findley, Roy Kent and R. K. Snow.

A party for the husbands of members is being planned to take place soon at the home of Mrs. Charles Temple.

MUSICAL PROGRAM

MRS. L. N. HAGOOD IS HOSTESS FOR CHILDREN AND THEIR MOTHERS ON FRIDAY

Mrs. L. N. Hagood of 216 Orange Street entertained yesterday afternoon for her music pupils and their mothers. The following children took part in the musical program:

Jane Piercey, Johanna Michel, Ruth Harwood, Opal Hopper, Marjorie Prialux, George Herald, Betty Hagood and Carolyn Ayars.

Following the recital a contest, fashioned after a spelling match, was held, of their ability to answer questions pertaining to music. The prize was won by Ruth Harwood.

Punch and wafers were served. Mrs. Hagood was assisted by her daughter, Mrs. Merritt Brown.

FIRST SHIPMENT

GLENDALE GROWN CUCUMBERS FROM 10 TO 12 INCHES IN LENGTH SENT OUT

The first shipment of Glendale grown cucumbers was sent to Chicago this week from the Davis-Glendale company's mammoth greenhouse in the Grand View district. They are from ten to twelve inches long. Glendale stores are handling them also. It is the intention of Mr. Davis to put up another greenhouse ere long and others at intervals until all the year-round fruit and vegetable business of immense proportions is installed.

PERSONALS

Miss Mabel Anderson of Whittier is the guest of Mr. and Mrs. W. W. Hamilton of 327 West Garfield avenue.

O. L. Barnett, 334 West Broadway, was an invited guest at a large banquet held in Los Angeles Thursday night by a grocery company for its employees.

Helen Felice Esterly is the name of the 8-pound baby girl born to Mr. and Mrs. A. J. Esterly of 363 Salem street at the Burbank hospital Tuesday morning.

Miss Eleanor Brice, who attends a Hollywood school for girls, is spending the week-end with her mother, Mrs. Charles P. Brice, 304 North Kenwood street.

Mr. and Mrs. F. A. Hebestreit of Detroit, who are spending the winter with Mr. and Mrs. T. C. Creel of 129 South Jackson street, visited friends at Tejuja Thursday.

Miss Evangeline Quackenbush of 1119 East Colorado street, who has been confined to her home with a severe cold, is now able to resume her work as a music teacher.

Miss Beatrice Dossie of 360 Salem street entertained Mrs. LaHines and Miss Wise of Kansas City, Missouri, yesterday. Mrs. LaHines and Miss Wise are in California for the winter.

Mr. and Mrs. O. G. Jacobs of Wichita, Kansas, who are the house guests of Mr. and Mrs. F. A. Beach of 327 Riverdale Drive, have gone to San Francisco and Stockton on a short visit.

Mrs. F. A. Beach of 327 Riverdale Drive entertained at dinner Thursday night in celebration of her husband's birthday. The guests were Mr. and Mrs. O. P. Davis of Los Angeles and Dr. and Mrs. Walter Mink of Santa Monica and a very delightful evening was spent.

Wm. Rath of 1246 East California avenue, driving south on Adams yesterday and Louis E. Fritz of 725 South Maryland avenue, driving west on Windsor Road, came to the crossing of the two streets at practically the same time. The result was that Rath's machine had a fender torn off and running board smashed.

Mrs. E. C. DuBarry of 471 Patterson avenue leaves Sunday for San Francisco and Oakland to be gone a month. She will visit relatives and friends. While there Mrs. DuBarry expects to meet her husband, who is returning from British Honduras, Central America, where he has been on business.

M. M. Eshelman and wife of 1247 South Maryland avenue had as guests yesterday Mr. and Mrs. J. M. Byers of Mechanicsburg, Pa., old friends, and Mr. and Mrs. Geo. Altpeter of Yolo county, California. Mr. and Mrs. Byers are seeking a location in southern California and the Eshelmans hope they will decide on Glendale.

Mrs. David Francy of 136 North Kenwood avenue entertained forty members of the Glendale W. C. T. U. at her home yesterday afternoon. Articles on "Our Part in World Prohibition" were read by Mrs. Bacon and Mrs. Dockery, Miss Matilda Spencer, who has been doing missionary work in Japan for a number of years, spoke on the work being done in that country. Refreshments were served.

Mr. and Mrs. John Dunn of 446 West Colorado street entertained Alvin B. Dunn, Sr., brother of John Dunn, and Alvin B. Dunn, Jr., at dinner Monday night. Alvin Dunn, Jr., became a member of Glendale B. P. O. E. 1289, that evening and the dinner was to celebrate the occasion. Alvin Dunn, Sr., is a newspaper man and owns one of the Los Angeles weekly papers.

Eight thousand telephones have been ordered for installation in Cuba this year. Five thousand were installed in 1920 and 4500 in 1919. It is estimated that another year will find 40,000 phones in use on the island.

The automotive industry in the United States provides work for 930,000 persons, with an estimated annual earning of more than \$747,000,000.

WORK ORDERED

DRAINAGE CONDITION UPON ACACIA STREET TO BE CHANGED BY CITY

Construction of a depression in the roadway of Acacia avenue about 100 feet east of Glendale avenue and the lowering of the gutter on the south side of Acacia avenue so as to obtain sufficient grade to carry the water to the property line at Glendale avenue, has been authorized by the Board of City Trustees on motion of Trustee Robinson, following a recommendation of T. W. Watson, city manager.

In making the recommendation, the city manager, after an investigation, reported as follows: "In regard to drainage condition on Acacia Ave. east of Glendale avenue referred to us January 27, we respectfully report as follows:

Causes Water to Stand
"The grade of Acacia avenue is practically level between Mariposa street and Glendale avenue, it being a little lower if anything at Mariposa. This causes the water to stand in the gutter on both sides of Acacia avenue at this location for a considerable time after each rain. This condition could be remedied by the construction of a depression in the roadway of Acacia avenue about 100 feet east of Glendale avenue and the lowering of the gutter on the south side of Acacia avenue so as to obtain sufficient grade to carry the water to the property line at Glendale avenue. From that point it could be carried in a pipe under the sidewalk and parking and discharged in the gutter on Glendale avenue 110 feet south of the intersection of Acacia avenue. This would cost approximately \$200."

Union Meeting Is Called

The Federated Brotherhood of Glendale, whose motto is "A clean city kept clean," is taking great interest in the fight against cigarette smoking, hence the members are glad to extend their auspices to the union meeting to be held in the First Methodist Episcopal church, tomorrow afternoon at 3, when Rev. James A. Walton, manager of the Anti-Cigarette League of America, is to speak. All fathers and mothers should be present and have the boys and girls there to hear the speaker's logical arguments against cigarette smoking, says the committee.

Local Officer in Arrest

A recent press report that Jack Pickford, film actor, had sealed up his car in the garage for a year, because he had been refused a 1921 license by the state motor vehicle department on account of having been convicted of speeding three times in 1920, led to the remark by Traffic Officer Trautwein that he made one of the three arrests that resulted in these convictions. A good many actors and actresses pay fines for speeding in Glendale during the year, he says.

Grocery Costs Lower

Glendale housewives, say local grocery dealers, have reason to congratulate themselves on the opportunities offered to buy groceries cheaply. A comparison of ads of Glendale grocers in yesterday's Evening News with those of Los Angeles merchants in the afternoon papers, showed some staple articles cheaper in this city and few, if any, higher, local dealers say.

Opens Bids for Church

Arthur G. Lindley motored to Reedley, Fresno county, last Tuesday, to open bids for the new \$60,000 Methodist Episcopal church building he had prepared plans for. He let the contracts while there and the work is being rushed. Mr. Lindley returned home the following day.

According to the bureau of markets the index figure of food prices in December was 3.6 per cent lower than the average of the past ten years.

Farm women will be interested in Farmers' bulletin 607, "The Farm Kitchen as a Workshop." The bulletin deals with the advantages of a convenient and well-equipped kitchen.

League of Neighbors

A life insurance company is nothing but the medium through which neighborly impulse is made practical. It is nothing in the world but a "League of Neighbors" co-operating in a kindly but business-like way for a generous purpose. It may have the outward aspect of bigness and wealth and it may be terribly misunderstood and misjudged, but in the final analysis it is only an aggregation of well-disposed persons working out a philanthropic idea in the only practical way. It is, indeed, a "League of Neighbors" pure and simple. This is particularly true of "The Provident." Wouldn't you like to be a member of such a "League?" You are urged to join it.

Meat Pie

2 cups meat cut in cubes
1/2 onion sliced
4 tablespoons flour
4 tablespoons cold water
Salt and pepper
2 cups potatoes sliced
Enough biscuit dough to cover dish.

Parboil sliced potatoes about eight minutes in boiling salted water. Cut up cold cooked meat and cook with onion until tender in water to cover.

Mix flour and water with salt and pepper until free from lumps—making about two cups of sauce when mixed—grease the Glass Baking Dish and put in all the ingredients—cover with the baking powder biscuit dough rolled to fit the dish and bake in a hot oven until nicely browned. Serve at the table from the Glass Baking Dish.

Mme. Rambeau's Glass Baking Dishes

On account of the desirability of glass bakingware—housewives everywhere are adopting it—Easy to clean—heat cannot break it—Every needed baking utensil is featured in this beautiful new ware—Prices are very reasonable—Ask to see it.

EXTRA SERVICE

ANOTHER P. E. CAR WILL AID IN DISPATCHING OF MAIL FROM GLENDALE

Not every one who read the brief announcement in yesterday's Evening News concerning the new evening dispatch of mail for the north realized the importance of this change.

It meant one more Pacific Electric mail car a day, at 4:20 p. m. to connect with the Owl leaving for the north at 6 o'clock. All mail deposited in the Glendale office by 4 o'clock will be taken in on the 4:20 car, which means a twelve hours earlier dispatch of mail for both the coast and valley routes, also for northern California, Oregon and Washington.

San Francisco mail taken on this train will be delivered the next day before noon.

The schedule of the Glendale office for the arrival and departure of mails is as follows: Arrives, 6:15 a. m. and 1:30 p. m.; departs, 8:20 a. m. and 12:20, 4:20 and 6:00 p. m.

PAY ANNOUNCED

MEMBERS OF LOCAL COMPANY OF NATIONAL GUARDS TO GET COMPENSATION

Glendale members of the National Guard will get the same pay, equipment and privileges as men in the regular army, according to the emergency amendment to the existing law passed by the legislature and announced by Adjutant General Borree in a telegram to Col. James S. McKnight, commanding the regiment, of which the Glendale company is a part.

The amendment provides a payment of one-thirtieth of regular army pay for each night's drill and full pay during fifteen days encampment. This makes the minimum pay for privates \$1 for each drill, non-commissioned officers drawing more. A few more men can be taken in the company, says Captain Thomas W. Watson.

Turn Water in New Main

Water was turned into the new sixteen-inch main that was recently laid along Grand View avenue and Tenth street, Thursday.

Class Members to Meet

The J. O. C. class of the First Methodist church is to be entertained Monday night, February 7, by Miss Mamie Haines, 373 West Wilson avenue. This is a class of married ladies and Mrs. C. M. Crist is the teacher.

Miss Steele Press Agent

Miss Helen M. Steele of 416 North Isabel street has been appointed publicity agent for the new Glendale Sanitarium hospital, which is to be opened for patients some time this month, probably.

Legion Dance Postponed

The American Legion dance that was to be given in their hall at 610-A East Broadway, tonight, has been postponed to next Saturday night, it is announced.

Building Being Altered

Ezra Parker's building at 136 North Brand boulevard, occupied by E. H. Kerker and wife, as residence and real estate office, is being done over so that its appearance will be greatly improved. The ceiling has been replastered, walls and floor repainted and all made to look brand new.

Palmyra Island, 1000 miles south of Honolulu, has no mosquitoes, no scorpions, no centipedes, and has plenty of fish in the surrounding water, thousands of birds, luxuriant vegetation and a cool climate.

Experiments conducted in the research laboratories of the army signal corps prove that a number of messages may be sent over submarine cables simultaneously through the use of alternating current.

Grandmother Was Fussy

—about the washing of her woollens, but not more so than we are. After years of experience we have reduced the washing of woollens to an exact science and all the care we take is worth while.

Experience has taught us that only pure, soft water should be used, that it must be 110 degrees, no more, no less; that only mild, white soap that instantly dissolves and forms a smooth, creamy suds is suitable for the washing of woollens.

Finally every vestige of soap is rinsed from the fabric in many changes of water and your woollens are hung in a gentle breeze of balmy air that raises the nap while it dries and plumps the fabric making it elastic and springy and warm and downy. Bundle up your choice woollens with the family bundle and phone for one of our drivers to call.

ATTENDS SESSION

MRS. G. W. PIERCE IS PRESENT AT BIG SISTERS' LEAGUE AT TRAINING HOME

Mrs. G. W. Pierce of 209 East Maple avenue attended a most interesting meeting of the Big Sisters' League held at the training home, 2118 Trinity street, Los Angeles, Thursday.

The object of this organization, which is non-sectarian, is to maintain a home or homes for women and children released from the courts on probation or parole in the custody of probation officers; to encourage the development of the probation system and to assist in every way in the reformation of offenders and the prevention of crime, says Mrs. Pierce. No destitute person making application and considered worthy is refused admittance. Work is found for many of the girls and women, she states.

Mrs. Minnie Barton, probation officer, is the superintendent in charge of the home. Women from many of the surrounding cities belong to the league. The training home is maintained by contributions and the generosity of those interested in this social betterment work, Mrs. Pierce states.

BRIDGE OVER DETROIT

DETROIT, Mich.—Bills authorizing the erection of an international bridge spanning the Detroit river from this city to Windsor, Ontario, will be introduced to congress and in the Canadian parliament shortly. Senator Charles Townsend of Michigan is expected to offer the bill in congress. Word from the Canadian side of the river is that the bill will be introduced in parliament immediately.

As planned, the bridge would cost \$28,000,000 and would consist of two decks, one for railway service and one for foot and vehicular traffic. The river at this point is one mile wide and the channel through which the large lake steamers pass is about 30 feet deep. It has not been decided whether the bridge will be of the draw type or built high enough to allow the steamers to pass below.

The present bridge plan was suggested early last summer and the expense of construction will be met by large business interests on both sides of the river. The bridge will be operated by the two cities. The only means of crossing the river now is by ferries operated by a private company.

If authorized by congress and parliament, preliminary construction work will be commenced with the next year.

Representatives of wooden ship-building companies have informed the shipping board that unless there is a speedy settlement of all claims many companies will be forced into bankruptcy.

LICENSE PLATES

ALL BRANCH OFFICES WILL
GIVE ASSISTANCE, SAYS
AUTO CLUB

By STAFFORD HARLOW
Manager Glendale Branch of Auto
Club

Now is the time to apply for your
state license and new plates, Mr. Mo-
torist.

A week ago officials of the Auto-
mobile Club of Southern California
advised motorists to go slow in ap-
plying for the 1921 licenses, but the
ban was lifted yesterday and all
branch offices of the club, as well
as the headquarters, are ready now
to handle the rush of members.

The same advice which applies to
club members applies also to the gen-
eral motoring public, it is stated.
Further delay in making application
may prove fatal in securing the
plates in time for the enforcement of
the law this year.

Urged to Seek Help

Motorists who are in doubt as to
the procedure in securing the 1921
plates and certificate of registration
are advised to seek help in person
from any touring bureau of the Auto-
mobile club, wherever located.

On account of the large member-
ship, only members of the organiza-
tion can be cared for this year in
actually securing the plates, but ad-
vice will be gladly given whenever
sought.

It will be found that there are few
changes in the process from that of
last year. One of the most striking
departures is that the certificate of
registration will be returned to the
applicant with the new 1921 plates,
and attached to the envelope in
which they are received.

HOW FAR AHEAD

REMARKABLE SHOWING IS MADE
BY INTER INSURANCE WORK
OF AUTOMOBILE CLUB

With a total net premium income
for 1920 of \$2,500,000 the inter-in-
surance exchange of the Automobile
Club of Southern California is now
far ahead of any other automobile
insurance carrier in the United
States, according to an announce-
ment made by Stafford Harlow, man-
ager of the Glendale branch of the
club.

This figure, according to Mr. Har-
low, represents a gain of 81.3 per
cent over the premium income of the
previous year. He said further that
that portion of the total sum, or \$1-
642,000, will place the organization
as the first automobile reciprocal in
the United States as regards premium
income.

The combination of the insurance,
legal and theft departments of the
club have kept the theft hazard very
low and made the loss ratio most sat-
isfactory.

The most significant fact, accord-
ing to Mr. Harlow, brought out by a
study of the department's figures
shows that more than 95 per cent of
all accidents are avoidable if only
one party to the collision would use
all care possible.

MOTOR MILEAGE

ESTIMATE IS GIVEN OUT ON
DISTANCE TRAVELED BY
AUTOMOBILES IN U. S.

The total annual motor car mile-
age of the United States is in excess
of 22,000,000,000 miles per year. Or,
estimated at the rate of three passen-
gers per car, the total passenger
mileage is 66,000,000,000 miles per
year. These figures are at least 50
per cent in excess of the passenger
mileage of all the railways in the
United States.

This is the real significance of the
automobile. In the short space of
twenty years the automobile has be-
come the greatest passenger carrying
transportation system in the country.
Its service is convenient, instantly
available at any time, and absolutely
indispensable.

HARDING CAR AT INAUGURAL
President-elect Warren G. Harding
will use an automobile for his ride
from the capitol to the White House
during the inaugural parade, March
4, instead of a carriage, the type of
conveyance used by every president,
with the exception of Andrew Jack-
son, who rode horseback.

BRAZIL IMPORTS ARE TOLD
The total number of automobiles
imported into Brazil from January,
1907, to June 30, 1920, was 24,475,
representing a value of \$24,723,430.
Of this number the United States fur-
nished 15,109 cars.

**NOTICE THAT COPIES OF PRO-
POSED CHARTER FOR THE
CITY OF GLENDAL E MAY BE
HAD.**

Pursuant to the order of the Board
of Trustees of the City of Glendale,
public notice is hereby given that
copies of the proposed charter for the
City of Glendale prepared by the
Board of Freeholders and filed with
the City Clerk on the 12th day of
January, 1921, have been printed in
convenient pamphlet form, and that
such copies may be had upon appli-
cation therefor at the office of the
City Clerk in the Hall of the City
of Glendale.

J. C. SHERER,
City Clerk of the
City of Glendale.

1-27-3-29

THE UNIVERSAL CAR

"The Ford Coupe"

HERE is one of the most useful of all closed cars. Specifically so when not more than two or three are
to be accommodated with reliable car service. The Ford Coupe is a mighty cozy car, in that it is abso-
lutely water-tight, at the same time with its sliding plate glass windows you can have an open car, to
all intents and purposes, in a couple of minutes. So it doesn't make any difference what the weather
may be, rain or shine, summer or winter, in the Ford Coupe you have an enclosed car of comfort and
service. What more do you want?

It has proven particularly a valuable car for traveling salesmen, physicians, engineers, architects,
and others who have much out-of-door work all the year around. We have never been able to fully
meet all demands for the Ford Coupe, but with the increased producing capacities of the factory we
are now able to make reasonably prompt deliveries. Yet we urge you to leave your order with as little
delay as possible—our allotment is limited.

Insist on genuine FORD PARTS

CARELESS DRIVERS

TAKE LICENSES AWAY FROM
DEATH DEALING OPERATORS,
URGES STATE OFFICIAL

Revocation of operators' licenses
for violation of traffic laws and
prosecution for manslaughter for
careless drivers who cause the death
of human beings are methods advo-
cated by Charles J. Shenu, superin-
tendent of the State Motor Vehicle
department, to curb wild driving in
California.

Chenu believes that by revoking a
man's right to drive a machine an of-
fender would be punished more se-
verely than by confining him in jail
for the less serious offenses. A per-
son who causes the death of another
partly or wholly because of reckless
driving should be prosecuted for
manslaughter and forever denied the
right to drive a car, Chenu believes.

Would Suspend License

Chenu would suspend a careless
driver's license for thirty days for
the first offense if it was of a
flagrant nature, and for the second
offense he would take away the right
to drive for a longer period. Re-
peated violations would be punished
by longer periods of suspension.

"I believe it would hurt a man
more to take away his right to drive
an automobile than it would to fine
him a few dollars, or to put him in
jail with a lot of hardened criminals
or tramps," said Chenu.

POLICE NAB MOTOR HEARSE

While the police were rounding up
automobiles bearing 1920 license
tags after the limited extension of
time in Philadelphia, a motor patrol
wagon and a motor hearse were
among the hundreds of automobiles
and trucks seized.

Pennsylvania has a state wide law
regulating the sale of secondhand
automobiles.

Between 1500 and 2000 passen-
ger automobiles are now operating in
Tientsin, China.

Traffic through the Panama canal
established new records during the
year just passed. Tolls levied
amounted to \$10,295,000. More
than eleven million tons of cargo
were carried by the 2814 vessels
which used the passage.

In Cuba the marriage laws are
very rigid. Until recently persons
divorced for any cause could not be
married.

Chairman Benson of the shipping
board urges operators of government
vessels to give preference to Ameri-
can seamen even though they cannot
be hired for as low wages as foreign
tars.

LAW VIOLATORS

ELEVEN PERSONS IN COURT
IN ONE DAY AS RESULT
OF SPEEDING AUTOS

Eleven alleged violators of the
traffic laws faced Judge F. H. Lowe
Friday and enriched the city treasury
in various sums. One was a four-
teen-year-old boy accused of driving
an auto over thirty-two miles an hour
in the twenty-mile zone. Two men
who used Glendale avenue as a race
course were made to see the error of
their way in exceeding forty miles
and the manipulator of a motorcycle
and side car who wanted to "get
there" too soon is also regretting.

Personal property taxes on motor
vehicles in the United States amount-
ed to no less than \$10,000,000 last
year.

The fire department of Atlantic
City, N. J., is to be completely mo-
torized.

There has been introduced in the
Minnesota legislature a bill which
would compel wholesale clothiers to
be licensed and to submit an annual
report as to the amount of merchan-
dise on hand or be subject to a fine
of \$500 to \$1000.

SALE OF BONDS

STATE HIGHWAY BOARD WILL
MAKE SOME IMPROVEMENTS
IN STATE'S SYSTEM

The state highway finance board has authorized the sale of \$3,000,000 bonds at 5 1/4 per cent for highway improvement work throughout the state. This will be the first block of an authorized issue of \$40,000,000, and will take the place of part of the \$12,000,000 cancelled following a recent decision of the state supreme court.

The bonds will be offered for sale as soon as they can be engraved, it was announced at the highway commission office.

Spring Building Problem

The fund raised through the sale of the bonds will be used in carrying out the spring construction program of the highway commission, which includes paying units in the counties of Shasta, Tehama, Santa Barbara, Fresno and Kern, it was announced.

The highway commission has announced that on February 21, it will receive and open bids on approximately 75 miles of new paving. The Shasta county unit includes a stretch about 15 1/2 miles between Redding and the south county boundary. In Tehama county the commission plans to pave a unit 13 1/2 miles long between Red Bluff and the northern county boundary. These two units will complete the highway from Sacramento to Redding.

TRAFFIC LAWS

UNIFORM REGULATIONS BEING
SUGGESTED; ILLUMINATED
LICENSE IS FAVORED

Praise for the uniform code of traffic laws drawn up by the executive committee of the International Traffic Officers' association at their recent Cleveland meeting is being received from many different sources, reports Lieutenant Dan Sylvester, president of the great traffic officers' organization, who presided over the conference. Sylvester is head of the San Francisco Traffic bureau.

"Traffic experts from all over the United States and from other countries as well have sent word to us of their hearty approval of the proposed code, and congratulated the association upon the completion of its gigantic task," says Sylvester.

"A number of the special safety-first provisions of the code, which is to be presented to every state in the country for approval and adoption, came in for a special share of favorable comment.

Met with Approval

The proposal favoring the use of illuminated license plates as a protection against night accidents has met with the enthusiastic approval of all who have heard of the new code.

"Other provisions which have also met with favor in the opinion of the motoring public as well as the traffic experts, deal with standardization of 'stop' signs at railroad grade crossings, a minimum age limit, stricter control of the issuance of operators' and chauffeurs' licenses, standardization of headlight lenses, and the regulation of maximum weight of load and speed in the operation of trucks on the highways of the nation."

ANNUAL DECREASE

NOT SO MANY AUTO THEFTS
IN SOUTHLAND, FIGURES
FOR YEAR INDICATE

For the first time in the history of motoring, there was an annual decrease in the number of auto thefts during 1920 over 1919, according to a report issued. There were 1635 autos stolen in the southern counties during 1920 while there were 1662 reported stolen during 1919—a decrease of twenty-seven.

This may seem a very small figure to the casual observer, but it has a significant meaning to the local automobile owner, for it means that the wave of thefts has retreated instead of progressed.

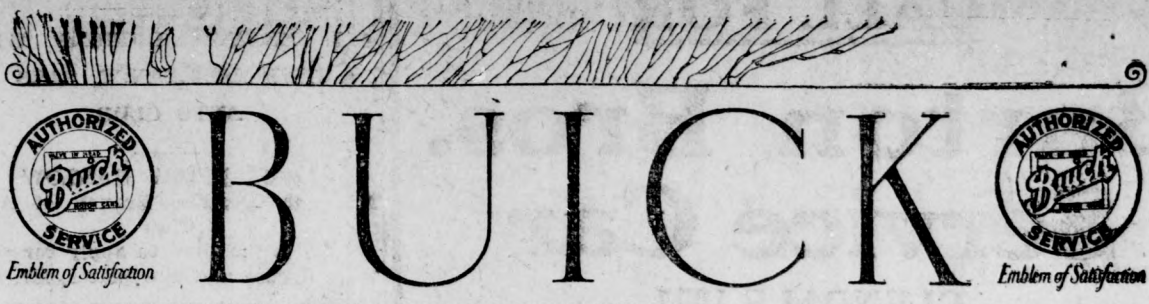

Every year, since 1912 the thieves have gained annually on the law, and this is the first time that the number of thefts has even indicated a decrease. Every effort will now be made by the authorities to keep the lead over the thieves, and further cut down the theft total.

Getting More Skillful

Of these cars stolen last year, 1142 were recovered, leaving 493 "outstanding" on which no report has been secured. Of the cars stolen in 1919, just 1311 were recovered, leaving only 351 unrecovered, which was a better average for the law.

This seems to indicate that while the thieves are getting fewer, they are getting more skillful. In other words, only the best and most expert thieves are left in the field. The amateurs and blunders have been eliminated.

But the present year already indicates a growing carelessness on the part of auto owners in failing to lock their cars when parked at the curb, and in failing to remember or register their identification marks so that the machine can be identified in other states if it is stolen.

FOR twenty years greater ruggedness and endurance have been built into each succeeding Buick model—for Buick has always realized that utility is the true measure of motor car value.

The new Buick Nineteen Twenty One models also possess that beauty and refinement so pleasing to car owners.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

BUSINESS ACTIVE

R. E. NADEAU ASSERTS THAT
THERE IS GREAT DEMAND
FOR FORD MACHINES

"Car business dull? Well, I should say not!" said R. E. Nadeau of the J. A. Nadeau company, authorized Los Angeles Ford dealer. "During January we sold 145 cars and to cap the climax sold ten touring cars and one sedan to the Ford Rental company at one clip and received spot cash for the lot."

Mr. Nadeau in talking of the old days in Los Angeles, not so very long ago when buggy riding was in its prime, recalled that it used to cost anywhere from \$5 to \$10 to rent the horse and carriage for the day, and if you drove to Pasadena or one of the beaches you thought you had been an awfully long distance. Now for the same money you can rent a Ford, drive it yourself, and take in almost all the beaches and, perhaps, several towns besides out Pasadena way.

Many Fords Being Rented

There are approximately 250 Ford cars in Los Angeles being rented in this fashion and on account of their popularity you have to ask for a car a day or so ahead to be sure of getting one from these rental companies.

"The Ford car is rapidly becoming the universal 'drive it yourself' rental machine," says Mr. Harlan of the Ford Rental company; "so in picking a machine for the rental business, we decided upon the Ford as being the best suited for all purposes. It is dependable, every one trusts it, every one can drive it, it is the most economical and it will go anywhere. We expect to buy many more as soon as business warrants the increase and expansion."

Road building experts are endeavoring to impress the public with the fact that the old methods of building roads no longer produce results equal to the demands for highway transportation. If the highways are to be developed to their capacity, there must be better and better highways.

A boot and shoe factory which employs a large number of pieceworkers permits its employees to come and go when they please so long as they finish the minimum daily stint between 7 a. m. and 5 p. m.

The cleverest coloring in the manufacture of artificial eyes is performed by women, who appear to have a singular aptitude for successfully blending the pigments.

More than 1200 passenger automobiles are now in operation in Russia.

CLEAN UP CAMPS

AUTOMOBILE CLUB IS GIVING
AID TO CAMPAIGN WORK
OF HEALTH BUREAU

Continuing its efforts to maintain the automobile camps of the state in a high condition of cleanliness and sanitation, the California State Board of Health is actively engaged in co-operating with the authorities everywhere to bring about this much-desired result. The Automobile Club of Southern California has been asked to aid in this campaign, and is now working with its twenty different branch offices in the various southern counties, and from the home office in Los Angeles to assist the state officials in their work.

All garbage and refuse should be disposed of as soon as possible, and sewage gotten rid of according to the regulations laid down by the State Board of Health. Paper, tin-cans, pasteboard or wooden boxes, all receptacles in which food or luncheons are packed should be burned when they have served their purpose, so as not to leave any particles of food to draw flies.

Pure Water Necessary

Pure water is, of course, a prime requisite at all camps, and fuel for cooking. Lavatories of modern construction, water-flushed and so built as to prevent flies from getting in are also a vital necessity, separate ones for women and men, and situated at different portions of the camp. These should be rendered easy of access by suitable signs.

Inquiry at the offices of the Automobile Club of Southern California at Glendale, Los Angeles, Anaheim, Bakersfield, Brawley, El Centro, San Bernardino, Riverside, San Diego, Long Beach, Pasadena, Pomona, Porterville, Santa Barbara, Santa Maria, Santa Ana, Santa Monica, Tulare, Visalia and San Luis Obispo will give visitors information about these camps, and every aid and assistance given them to avail them.

Illinois has over 500,000 passenger automobiles and 64,000 commercial trucks.

HURLS DYNAMITE IN STOVE
OGDEN, Utah, Feb. 5.—Flirting with dynamite passed, the metaphor stage and became a reality to 12-year-old Glen Willard, of Liberty, Ogden canyon, this week.

Willard strolling through the canyon near his home picked up a frozen stick of dynamite, then walking home gleefully whittled the stick of frozen stuff. When he arrived home tired of whittling he threw the remnant into the kitchen stove.

In a few minutes there occurred a tremendous explosion. When the scene cleared, Tommy was minus three fingers, the stove was scattered over the house, the ceiling cracked and one wall of the kitchen was leaning against the other partitions of the house. The family in the house at the time, including mother, father and sister miraculously escaped from the explosion and falling debris.

A LECTURE ON CHRISTIAN SCIENCE BY SAMUEL W. GREENE, C. S.

A large audience gathered at First Church of Christ, Scientist, Glendale, Friday evening, to hear a lecture on the subject of Christian Science, by Judge Samuel W. Greene, C. S.

The lecturer was introduced by Dale G. Vaughan, First Reader, who said:

Friends: You have been invited here this evening to learn something about a religion which heals both the sick and the sinning. One of the avenues through which information regarding this religion is disseminated is The Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

It is my privilege to introduce to you a member of that Board, Judge Samuel W. Greene, C. S., of Louisville, Kentucky.

The lecture was as follows:

Christian Science offers today the most comprehensive, the most startling, and yet the simplest, sanest program for human thought and action of which the world has heard since the days of Nazareth and the early Christian teachers. The promise made through Christian Science as stated by its Discoverer and Founder, Mrs. Eddy, is "Divine Love always has met and always will meet every human need." (Science and Health, p. 494.) Christian Science is the unfolding to human consciousness of divine Love and its practical application to the healing of all human disorders. Christian Science is first of all a religion, not-withstanding some of its un-informed critics have not so believed. It is the religion of Christ Jesus come again to the world to heal the sick and the sinning by the same principle and law.

Christian Science in its healing ministry is not a patent cure-all, nor is it blind faith cure. It is not the action of will power, nor is it the action of the human mind. On the contrary, it teaches that the human mind must yield to the divine Mind, to that Mind which was also in Christ Jesus. In proportion that Christian Science is understood, the life and words of Christ Jesus become practicable for all ages and all people.

Christian Science comes to the sick, the sorrowing, the sin-burdened, the dissatisfied, the discouraged, offering them a scientific explanation of the comforting words of Jesus, "Come unto me, all ye that labor and are heavy laden, and I will give you rest," and of another wonderful promise of the Master, "Behold I give unto you power to tread on serpents and scorpions and over all the power of the enemy, and nothing shall by any means hurt you."

Biblical Promises Practical
It might be asked, why one would say that Christian Science comes offering these assurances. Any one of us may say I have read and known them always, but have they been realized in our experience? Have we made these and other Biblical promises of any practical import in our lives?

Christian Science comes teaching in the very words of Jesus of old that the kingdom of God, the kingdom of Heaven, is at hand—is here, is now, within us, around us, and about us. Through the practice and understanding of this teaching of Jesus, men and women in constantly increasing numbers are healed of all manner of sickness and sin, and their lives are made brighter, better and more satisfying. The theory that eternal life and happiness are to be had beyond the grave only, has always been a depressing element in religion. Christian Science shows that men do not have to wait for death or a final judgment day, before realizing and experiencing the joy of the fulfillment of God's promises. The Bible from beginning to end is filled with the most splendid promises for us as God's children, and unless we may believe that these promises are meant for the here and now, even for today, as Saint Paul said, "We are of all men most miserable!" for otherwise, we are without God and a saving religion in this life. What the world is wanting—is seeking—is a religion that comes to the sick and tells them how to be well; that comes to the discouraged and despondent and lifts them out of the slough of despair and despond into the joy, into the fullness, into the joy, of a closer walk with God. Christian Science supplies this need, through the spiritual interpretation of the Bible and the consequent spiritual understanding of God; and enables the world to find the rest and the peace that are promised by the Master.

Jesus' Practical Ministry
Jesus taught and proved the possibility of solving all of life's problems here and now. He overcame all the man-made laws of disease by healing all manner of sickness. He overcame the laws of lack and want by providing food in abundance for the thousands in a desert place, and by finding tax money in the mouth of a fish. He overcame the law of gravity by walking upon the stormy wave. He overcame the law of space and time by entering into the boat in the midst of the sea, and immediately it was at the other side. He overcame the law of death by restoring to life those who had died, and in his own case reappeared to his wondering disciples after three days in the tomb.

One of the last things he said to his disciples was, "He that believeth on me, the works that I do, shall he do also, and greater works than these shall he do, because I go unto my Father." Also perhaps in the last conversation he had with the eleven disciples, in perhaps the last hour of his human existence, he said, "These signs shall follow them that believe. In my name shall they cast out devils; they shall speak with new tongues; they shall lay hands on the sick and they shall recover." With these and other positive promises made by Jesus we must believe in the present possibilities of healing the sick, raising the dead, and performing all these wonderful works if we do believe in him, that is, understand him and his teachings, which is the correct interpretation of the Greek word trans-

lated by our word believe in the new version.

Mrs. Eddy and the Text Book

In the light of the fruits of Christian Science during the last half century, does it not seem strange that the world should have waited so long since the time of the early Christian era for some one to appear and call attention to the promises of the Bible and the possibility of their practical fulfillment in our human experience? Even more strange, is it not, that when Mrs. Eddy, a sweet, gentle, pure-minded woman did appear and began to heal the sick and to perform many of these wonderful works and miracles, and thereby called the world's attention to her demonstration as being at least in part a fulfillment of Biblical promise, that she should have been subjected to persecution at the hands of Jesus' professed followers? Ignoring, however, the persecution, the lack of sympathy and interest manifested by the world in her discovery during the early years, Mrs. Eddy never wavered in her task, but patiently and earnestly studied the Bible, that she might find the positive rule for the solution of this problem of Mind-healing which had been so graciously and wonderfully revealed to her through her own instantaneous healing from what the doctors had pronounced an incurable physical condition. The result of her studies she has since given to the world in the Christian Science text book, "Science and Health, with Key to the Scriptures," commonly called the "Text Book," which was published in 1875.

In this book, there is a chapter devoted to Genesis, and another to the Apocalypse, or Revelation of St. John, wherein is set forth the spiritual correct interpretation of the Bible, thus justifying that part of the title, "Key to the Scriptures." The last chapter of the book called "Fruitage" is a series of wonderful testimonies from men and women from widely separated localities, testifying to having been healed of blindness, deafness, rheumatism, Bright's disease, tumor, dyspepsia, cancer, tuberculosis, fever, colds and nearly every known disease simply by reading this book, Science and Health. The book itself needs to be read, for therein is unfolded with marvelous simplicity and power, the theory of healing and salvation as taught by Jesus of Nazareth.

One of the practical tributes to the book is seen in the fact that it is to be found in public libraries all over the civilized world.

Contrary to some critics of Christian Science, Mrs. Eddy never intended that the text book should take the place of the Bible, but it is to be studied and read in connection with the Bible. It was meant to be just what its name implies, a "Key to the Scriptures," and a text book on Christian Science. Within the pages of the book itself Mrs. Eddy says, "As adherents of Truth, we take the inspired word of the Bible as our sufficient guide to eternal life." (Science and Health, p. 497.) Again she says, "In following these lines of scientific revelation, the Bible was my only text-book." (Science and Health, p. 110.)

As the years have come and gone during these more than fifty years since Mrs. Eddy's discovery, an ever-widening circle has been covered by Christian Science, and an ever increasing host of its adherents, men and women, are daily bearing witness to its healing and saving power, and rendering their tribute of praise and thanksgiving to its revered Discoverer and Founder. There is, however, nothing of worship or deification in the attitude of Christian Scientists toward Mrs. Eddy, but rather the natural spontaneous expression of gratitude, whose one might expect from persons whose lives have been uplifted and are uplifted by the power of her inspired teaching.

It is possible that up to the time of her discovery of Christian Science, Mrs. Eddy never thought of becoming a great religious teacher or leader, and yet no other of the world's great leaders ever lived to such a substantial and extensive growth and organization result from his own teaching. Such results, however, are to be expected always when work is done as was Mrs. Eddy's work. The presence of God was not a mere theory to her but an actual fact on which she relied in establishing the Christian Science movement as well as in all other things.

Early in the practical operation of Christian Science, Mrs. Eddy saw that the then existing churches were not ready for Christian Science. Accordingly she established the Christian Science Church, The Mother Church, The First Church of Christ, Scientist, of Boston, Massachusetts. From time to time as occasion demanded, and as she was divinely led, she called to her aid the members of the Manual of the Mother Church for the government of the Mother Church members and for the organization of branch churches and societies and the government of their members. That the Manual is the work of inspiration is attested by the fact that its provisions have been broad enough to cover every question that has arisen in this rapidly growing, world-wide organization. Mrs. Eddy ever looked to the Manual in making decisions and she said of it, "Of this I am sure, that each Rule and By-law in this Manual will increase the spirituality of him who obeys it, invigorates his capacity to heal the sick, to comfort such as mourn, and to awaken the sinner." (Miscellany, p. 230.) Loyal Christian Scientists have always been grateful for the Manual and are ever attempting to follow obediently its provisions, thus meriting this tribute from their Leader, "Among the manifold soft chimes that will fill the haunted chambers of memory, this is the sweetest: 'Thou hast been faithful'" (Miscellaneous Writings, p. 343.)

God

Christian Science has revealed the correct concept of God. It has courageously and reverently asked the question, "What is God?" and has given the answer that is satisfying to thinking men and thinking women: God is Love, Life, Truth, Soul, Mind,

Spirit, Principle. Perhaps the term Principle as used for God has more than any other aroused the opposition of the critics of Christian Science. They contend that to speak of God as Principle takes away His personality, robs Him of His fatherhood, tenderness, and other so-called human attributes. Christian Scientists believe that it is time for the world to get away from the idea of an anthropomorphic or man made God, a sort of superman. The text-book says, "Human philosophy has made God manlike. Christian Science makes man Godlike." (Science and Health, p. 269.)

Principle
Principle is eternal, without beginning or end, is perfect, immutable, inviolable, unerring, ever active. Principle can not be moved by the breath of praise or flattery, or by entreaty or by threat. In the thought of God as Principle, Christian Scientists have abandoned the idea that God interferes in the affairs of men at the behest of this one or that one, or that He interferes with His own laws, causing the unnatural or supernatural to be happening in the affairs of men. Christian Science shows that God's creation is already perfect, complete, consequently the true mission of Scientific Christianity is to reveal this fact to us and then to show us how to overcome in our own lives and experiences every thing and every thought that is unlike God and His creation.

Christian Science Treatment

As a practical illustration, let us suppose a man to be sick, and that he desires the help of God, and turns to Christian Science to be made well. Since God's work is already done, there is no specific or individual action required of God that this man's condition should be made right. The Bible says that God looked upon His work, and that it was very good. The prayer or prayer of the Christian Science practitioner, is a clear positive, knowing and understanding that God has made all and made all good. God created man in His own image and likeness, and as a necessary result of the law of creation, man in God's image and likeness must be Godlike. He must reflect the God-like qualities, joy, peace, harmony, dominion, freedom, power. God being good, has not created and from the very nature of goodness, could not have created any fever, pain, or aches of any kind, and since God is the only power, no other power has created them, and man can not have them, because they do not really exist.

To persons accustomed to the use of material remedies in case of illness such a system of course, only briefly and inadequately outlined by me, might not at first be considered scientific or beneficial, yet the actual experience of any one who will test it according to the principle and rule of Christian Science will prove that it is both Scientific and beneficial. But, says a friend, "Why try to say I am not and can not be sick when I know I have this pain?" No one can be found who will have more loving consideration for those suffering from disease and pain than a Christian Scientist. Christian Science is not an admonition to bear suffering patiently nor to endure it stoically, but is, on the contrary, a scientific system by which disease and suffering are to be overcome. It shows any person who will earnestly study and practice it that the evidence of the human senses is all there is to any suffering, and if this evidence be changed or overcome, the disease and suffering disappear.

Have you ever observed how the physical senses are so easily and commonly deceived? There is not a day, nor perhaps an hour, but what we are the victims of some false testimony of the senses. The school boy crosses the first two fingers of his hand, closes his eye, and has his crossed fingers rubbed over a marble and the sense of touch will indicate to him two or three marbles instead of one. Stand in the car track and follow the rail with the eye and the sense of sight will tell you that presently the rails come together, but it isn't true. Or, sit in the railroad train that is standing and look out of the window at a moving train on an adjacent track and every sense tells you that you and your train are moving and practically your only escape from this delusion is to look away from the moving train and see things as they really are. In the same way, when the human senses speak to us of sickness, sorrow and separation, we should look away from the things of sense to God, and see Him as He really is; see and know the real man as he is in God's image and likeness, and we shall come to know that the real man cannot be sick nor discordant. In this connection, one may see how much of good can be accomplished and how much of sickness and sorrow destroyed by the process of correct thinking and knowing.

For instance, if you stood at your front window and saw a man with a club in his hand approaching the house and knew from current report that this man would, if permitted to enter the house, maltreat its occupants, would you sit down and without resistance, suffer the man's assault? Not at all, you would bar the doors and windows and resist to the limit of your strength. Yet you doubtless permit all sorts of unhealthful diseased thoughts to enter your consciousness daily and hourly with little or no resistance perhaps not aware that you have a sure defense. To illustrate, almost daily, one hears discussions and declarations of disease, lack, envy, greed, of mind and body. More frequently than otherwise the listeners to these discussions instead of discounting or denying their reality, admit them into consciousness as real and true; and thus are implanted seeds that produce far more distress and suffering in their fruition than would result from the assault of the man with the club.

A notable instance of suffering and destruction resulting from this mental attitude is witnessed in the lives of children. There is a common belief entertained by a majority of doctors and laymen that all children must be the victims of certain so-

called children's contagious diseases. Many excellent mothers in most respects, are never happy and satisfied with their children until each child has experienced every one of these children's diseases, lest for some reason the child might contract the disease in adult years with more pernicious effects.

What a cruel and unnatural belief that our God who is Love would make a specialty of afflicting and destroying helpless and innocent children. How much more natural and healthful it is to know and understand that God who is the author of good is never the author of evil.

Thus we need to bar the door of our consciousness against the admission of all such harmful thoughts of disease and evil. Likewise we need to know when the human consciousness becomes spiritualized through right thinking and knowing, and man is revealed to be the manifestation of Spirit not matter, the divine Mind is reflected, and man is governed by God. Mrs. Eddy says, "God will heal the sick through man, when ever man is governed by God." (Science and Health, p. 495.) As the light of this healing truth is carried into that consciousness darkened by fear and ignorance, it banishes all sense of error, even sickness, as well as sin, and illumines that consciousness with light and love. In speaking of Jesus' treatment of the sick during his earthly ministry, the Christian Science text book says, "Jesus healed in Science the perfect man, who appeared to him where sinning mortal man appeared to mortal men. In this perfect man the Saviour saw God's own likeness, and this correct view of man healed the sick." (Science and Health pp. 476 and 477.)

God, an infinite, eternal power, is always present in the world to heal the world of all its sickness and to solve all its problems. He comes not to Christian Scientists alone, but to all who approach Him through a spiritual understanding of His infinite power. It is the mission of Christian Science to help men and women to come into the relation of understanding in which they may recognize, to use a scientific expression, their at-one-ment with God. When a man's consciousness reaches that state of understanding he will be healed of any sickness and whatever his problem, it will be solved.

In many Christian Science meetings, at the regular church services, and at lectures, men and women do come to realize the relation of understanding that this power of God is present in their lives and they are healed.

Man

This brings me to a discussion of what man is, and of his relation to God. In the book of Genesis, are found the best and most complete accounts of man's creation. Until I studied the subject of Christian Science, I never saw the distinction between these two accounts of creation, yet they are quite unlike.

In the first chapter of Genesis, the record runs, "So God created man in His own image, in the image of God, created He him, male and female created He them." Christian Science teaches that this is the correct account of man's creation. It sets forth the spiritual man. When Christian Science says that man cannot be sick, nor suffer, nor sin, nor die, reference is made to this real man, this God-created, this spiritual man; or, to use a scientific term, this God-idea.

Christian Science teaches that creation is not the molding of forms out of matter, but is the unfolding of spiritual ideas; that men and women are ideas of God, of infinite Mind. It teaches that this is the spiritual growth to dwell in the consciousness of one's spiritual being and one is led thereby to see the force and truth of Mrs. Eddy's statement on page 14 of Science and Health, "Becomes conscious for a single moment that Life and intelligence are purely spiritual—neither in nor of matter, and the body will then utter no complaints. If suffering from a belief in sickness, you will find yourself suddenly well."

Other systems of religious instruction have likewise taught the perception of spiritual man, but they have not made their teaching practical. They have generally assumed that man must first die and be resurrected and then be invested with his spiritual nature. They have scarcely dared to hope that this life could be other than the generally accepted "vale of tears."

Christian Science shows that the truth concerning spiritual man is a scientific truth, and through Christian Science may be understood, and become operative in the half of humanity. It teaches that the presence of God in our lives is not and should not be a vague or far off, uncertain thing, but a living, throbbing vital presence on which man may and should rely in all circumstances, and under all conditions.

This will be a wonderful world when more men and women realize their God-given heritage and possession. There will be less envying, hating, killing and more loving. What Paul calls "the fruit of the spirit," love, joy, peace, long-suffering, gentleness, goodness, for man is the reflection of God's goodness, of God's love, indeed of all the qualities of God; and it is only in the perfect reflection that God is expressed in the World. Was not this spiritual man what Jesus had in mind when he said, "Be ye therefore perfect, even as your Father in Heaven is perfect?"

Now let us consider the other account of creation. In the second chapter of Genesis, the record runs, "And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul." And then how woman was created, how God caused a deep sleep to fall upon man and from his side, He took a rib and of the rib, woman was made. Ever since that time, man has been the victim of sin, sickness, sorrow, and death. The historical part of the Old Testament is filled with an account of the sin, failures, destruction of this man of the dust. Earth's secular history to-day and for generations has been largely an account of the disappointments and disasters of this man of the dust. Has not the

world been recently convulsed with its greatest tragedy all because of the false aims, hopes and ambitions of this man of the dust?

Woman through the centuries has been regarded as an inferior creature, often a slave, all because of this false theory, that man is of the dust, and woman of his rib. It is only as Truth is enlightening the world that woman is achieving her rightful place as man's coequal; and it will only be as the truth covers the earth, even as the waters cover the sea, that the world will come to know and understand the "male and female" of God's creation as revealed in the first chapter of Genesis.

With these two pictures before us, man of the earth, earthy, bowed beneath the weight of human misery and woe, and man in God's image and likeness, reflecting the Godlike, the spiritual, the perfect, why do we hesitate to proclaim ourselves and our race of the true type with God given power and dominion over every living thing; for God has ordained this power and dominion in the first chapter of Genesis, the 28th verse. Is it not too in harmony with the promise of Jesus quoted in the beginning of this lecture, "Behold I give unto you power over all the power of the enemy." Does it not occur to you that when Jesus came to his earthly ministry and found man sick, sinning, sorrowing and dying, he remembered this early ordinance of God and reenacted it in those stirring words, calling the world to action on the basis of spiritual power with a new promise; and then proceeded to demonstrate by so-called miracles, step by step, man's power and ability to overcome all the power of the enemy?

Mortal Mind

What is the enemy over which Jesus says we have power? Paul says: "To be carnally minded is death, but to be spiritually minded is life, and peace, because the carnal mind is enmity against God." The enemy is, therefore, the carnal or fleshly mind, as Mrs. Eddy calls it in Science and Health, the "mortal mind," as opposed to the divine Mind.

Mortal mind, as it is understood and used in Christian Science, is not an entity, but is rather the absence of the reflection of the divine Mind. In other words, a state of ignorance and when it is the only mind that a human being has or knows anything about it subjects him to every ill to which the flesh is heir and this subjection is not decreased but is rather increased by what is ordinarily called education, unless this education be carried on with an understanding of the truth about God as revealed in Christian Science. For instance, the man who knows most of all the best and most complete accounts of man's creation, the subject of so-called symptoms of disease, is soonest the victim of some disease or, the man who is best informed on the subject of human anatomy is oftentimes finding something wrong with his anatomy. Was not this thought in the mind of the wise man, king of Jerusalem when he wrote a long time ago, "For in much wisdom is much grief, and he that increaseth knowledge increaseth sorrow."

Mortal mind is full of fear, doubt, anxiety, envy, hatred, malice, and what not of all this evil brood. It is no wonder that man governed by mortal mind is sick. Every so-called disease is some phase of mortal mind, fear, ignorance or sin. Jesus early in his ministry told his disciples that they had power over this enemy and this is easily understood, for every one can see that in proportion as he becomes enlightened, he has power over ignorance, especially when he perceives that this ignorance has constituted his own mentality. This is what Jesus meant when he said at another time, "Ye shall know the truth and the truth shall make you free."

As Christian Scientists, it is our mission, our constant effort and prayer to have always in us that Mind which was also in Christ Jesus. As Mrs. Eddy says, "Hold thought steadfastly to the enduring, the good, and the true, and you will bring these into your experience progressively, the truth, the life, the joy of your thoughts." (Science and Health, p. 261.) Is not this perhaps what the prophet of old had in mind when he said of God, "Thou art of purer eyes than to behold evil and canst not look upon iniquity?"

Unreality of Evil

This brings me to a discussion of the unreality of evil, for which teaching Christian Science has sometimes been criticized. What a wonderful world this would be if it could be rid of evil—and it can be. Evil is only in our consciousness and if we can understand that it is unreal we shall be rid of it. All will agree that God is good and that He has all power, and being good and having all power, we must, by logic, conclude that God has made all things good and consequently has not created any evil. Then you ask, where did evil originate? Someone may say it started with Satan, or devil, but surely God in His infinite goodness could never have conceived or created a monster of evil.

But you say, what will you do with the Satan or devil of the Bible? Hear what Jesus says of him: "He was a murderer from the beginning and abode not in the truth because there is no truth in him. When he speaketh a lie, he speaketh of his own, for he is a liar and the father of it." In these simple, emphatic words, Jesus at once and forever wiped out the lie about devil that has been responsible for all the sickness, fear, doubt, sorrow and sin that have come to the world.

Is it not the lie of which we read in the beginning which said to Eve, God has not told you the truth? You have but to eat of the other fruit and you will become as God? Does not come to us today in words like this, God is too big, too universal, too much concerned with other things to be conscious of the individual and you cannot be healed by him? And does it not say, what you need is to perfect yourself in material knowledge and learning and you will become as a god and heal yourself and solve your problems? It is all un-

true. If we may not look to God for help in every human problem, we need not look to man.

Some one asks if the unreality of evil means that man is not to suffer for what we call evil deeds. His answer is plain. "God is not mocked; for whatsoever a man soweth, that shall he also reap. For he that soweth to his flesh, shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting."

Evil is unreal, but we come to an understanding of this as the result of thought and demonstration. One does not learn mathematics by beginning with trigonometry and calculus, but by learning that one and one are two; two and two are four, and by working his way up through arithmetic, algebra and other branches to higher mathematics, so with all science and so with Christian Science. One's understanding comes with careful study and demonstration. Would you know what is meant by demonstrating or proving the unreality of evil? One can prove the unreality, the nothingness of evil by proving the all-ness of God. Let us begin simply—we all believe that God is good and that God is Love.

Let us go forth tomorrow with the thought of God's goodness and love in all things. Let us say nothing, believe nothing, that is unlike goodness or Love. Do you hear a man cough? Do not turn instantly and fix cold or influenza or any other disease upon him. That would be unlike goodness and Love. Know that God never made a cough therefore it is unreal and does not belong to man.

Do you see a man limping there on crutches? Do not fix lameness on him. That would be unlike goodness or Love. Lameness is no part of God's creation, therefore it does not belong to God's man, and should not bind him. Do you suppose Peter and John when they approached the temple and saw lying at the gate the man, a cripple from his mother's womb, began to think of weak muscles and undeveloped bones and structures? No, they saw nothing unlike goodness and Love. They saw God's man, and said to him, "In the name of Jesus Christ of Nazareth rise up and walk," and he was instantly made whole.

In Science and Health, page 123, we read "Divine Science, rising above physical theories, excludes matter, resolves things into thoughts, and replaces the elements of material sense with spiritual ideas."

Let us try this plan in our destruction of evil. We may begin on the members of the household by seeing them as thoughts; thoughts of God, expressions of His goodness and His love, existing to bless the home and all mankind. Contrariwise, let us not see them as selfish, impatient, intolerant, and all such evil thoughts or beliefs will be banished from the home. Then home will become the abiding place of love, goodness and harmony.

Maybe you are a teacher, then go forth to your school seeing the children not as disobedient, rude, mischievous, or unintelligent. Shall we not rather see them as thoughts of God, expressions of God's goodness, Love, and reflecting the intelligence of the divine Mind? You have no right to limit a child's intelligence when God has not. You can see how these uplifting thoughts will change your entire outlook and make a new brood—one that will bless you, the children and all mankind.

Perhaps some of you are workers in other lines—clerks or proprietors of stores.

It does not make any difference in working God's way, one's rank, whether he be clerk or proprietor. The proper business or work for him in either instance is to prove God and His all-ness. Then do not see the business as so many selfish clerks to be handled or as a cruel boss to be dealt with, or as so much material to be shown to customers, then put on the shelves day after day. Resolve all the business into thoughts of God, expressions of God's goodness, God's love, existing to bless clerks, proprietors, customers and all mankind. To wait on customers is added opportunity day after day to show forth the goodness and love of God whose reflections you are. It thus means opportunity to bless each customer and should mean great joy to you and to them.

In every store will be found old stock, worn, out of date; get it down, resolve it into a thought of God's goodness and love existing to bless mankind. It will meet someone's need who hasn't money enough for prevalent prices. Let divine Mind direct you in disposing of it, and it will bless someone—it has its right place and through this process, that place can be found.

Christian Science is trying to teach men that for every human need they should look to God, to the spiritual and not to the material. There is nothing in all God's creation to fear, for God is All-in-all and one cannot fear God or good.

Why is man's first thought, "Wherewith all shall I be clothed and housed and fed?" Has man so soon forgotten that Jesus said, "Seek ye first the kingdom of God and His righteousness, and all these things shall be added unto you?" In that connection Jesus had just been talking about clothes and food. Should it be thought a strange thing that God does give good things to the children of His love? Jesus told us in effect that much more than our earthly father does the Heavenly Father know how to give good gifts to them that ask Him. One may ask, if Jesus' promise means, that to take up the study in earnest of Christian Science, would result in health, happiness and prosperity? The answer is found in the lives of the great host of men and women the world around who have sought the kingdom of God and His righteousness and whose lives are filled with health, harmony, love and gladness. It is but a verification of what the apostle said, "Every good gift and every perfect gift is from above, and cometh down from

the Father of lights with whom is no variableness, neither shadow of turning."

Forgiveness of Sins

It has sometimes been asked if Christian Science teaches that sin is forgiven. It does. Sin is forgiven when it's nothingness is understood and the sinner no longer indulges therein. To pray for forgiveness, and to continue in sin does not raise a man to any new state of consciousness or well-being. It is like praying to an idol, it does not accomplish anything, but to know and understand that the illusions called sin are unreal, and confer no sweetness, or power, is to rise above sin and destroy it, consequently to find forgiveness.

Let us consider an instance in the life of the Master. On the occasion when the Scribes and Pharisees brought before him a woman taken in adultery, they were seeking the destruction of the woman and meaning at the same time, to involve the Master in a conflict with Jewish law. They assured him that the woman was guilty, and that the law commanded that such as she should be stoned, but that they desired to know what he had to say. The record states that he stooped and with his finger, wrote on the ground. It is not possible that in that moment the Master turned his gaze away from the group that he might pray, that he might see each one of that group as God's idea, an expression of God's goodness and God's love? He did not want to see self-righteous, condemning Scribes and Pharisees, nor did he wish to see an impure, sinful woman, but he did want to see each one as a child of God, expressing God-like qualities.

From the result, we may judge whether or not the Master's treatment, or prayer, was effective; the men, one by one, went out and left the woman alone. The Master, then looking upon her, asked where were her accusers, and being informed that there were none, he answered, "Neither do I condemn thee; go and sin no more." Thus Jesus taught that his mission was not to condemn, but to save the world. As followers of him, are men more apt now to condemn or to seek to save? Is not our way to group men in our thoughts and to label them—one group with a certain disease, another group with some sin, and another group guilty of this crime, and another group guilty of some other crime—in other words, condemning them to disease and sin when God has not?

Let us rather be followers of the Master and try to save our fellow-men by knowing and understanding that they are God's children and as such, neither sick nor sinful.

Jesus, the Christ

Christian Science has been assailed because of its teachings concerning Jesus, and it has been denied a place among so-called orthodox religions because it teaches that Jesus was not God. When we remember the difficulty that Jesus had in making even his disciples understand who and what he was, it is not strange that the Christian Science teaching on this subject has been misunderstood. Perhaps few of the immediate followers of Jesus saw the distinction between the human Jesus and the Christ, but Christian Science has made this distinction clear.

The man Jesus was human, born of Mary, and his life covered but a brief span of years; but the Christ, which was not a name so much as the divine title of Jesus, expressing his God-like nature, is eternal, and is ever inseparable from God Jesus in referring to himself as the Christ, said, "I am the way, the truth, and the life." "Before Abraham was, I am" and again, "Lo, I am with you always, even unto the end of the world." The Christ is now and always has been present in the world to be discerned by men. Through the ages, there have been men like Moses, Joseph, Elijah, Elisha Daniel and others who discerned and expressed a large measure of this Christ, Truth and were able to perform many wonderful works.

Jesus of Nazareth came to earth to be the Way-shower, or as Paul says, the mediator between God and man. He came to show men how to power to overcome in this life, sin, disease and death. He possessed more of the divine nature than any other person who has ever lived, and he was therefore called Jesus, the Christ, or Christ Jesus.

The Christ can no more be confined to an individual than can God, or divine Principle, or Love, but comes even as the spirit of Love into the lives of men and women who seek him and desire him. It is true that Jesus said, "I and my Father are one," but this expression is not at all inconsistent with Jesus' other statements concerning himself. He was one with the Father as it is explained in the Christian Science text book, "One in quality, not in quantity," even as a drop of water is one with the ocean, but it is not the ocean, or a ray of light is one with the sun, but it is not the sun; so is every man and woman as an idea of God one with the Father, else how could Paul have been correct when he said, "For in Him we live and move and have our being." When Jesus said, "Come unto me all ye that labor and are heavy laden," it was not to the human Jesus he was asking us to come, but to the Christ, the mediator between God and man. To those of us who have but touched him of his garment, have but caught even a faint glimpse of this Christ that heals of sin, sickness, sorrow and death has come the fulfillment of Jesus' promise, "And I will give you rest."

The bureau of mines states that 600,000,000 gallons of gasoline amounting in value to \$150,000,000, are lost annually through evaporation and that half of this is preventable. The bureau will issue instructions showing how the loss may be avoided.

Public school records indicate that at least four persons in every thousand stutter.
